One calibration score per trajectory
Fraction of complete runs covered
Maximum normalized error over one 80-step run
Calibration: 199 runs
Holdout: 100 runs
Previous radius: 0.08
Trajectory CP: 0.09009
Independent holdout (same frozen policy)
Fully covered holdout trajectories
82/100
95/100
100/100 runs stayed inside the lane.
Coverage and safety are different events.
